

Piper Brave PA-36

MICRO Vortex Generator Kit

About MICRO Vortex Generators

The **MICRO Vortex Generators** for the Piper Brave are now FAA STC approved and ready for installation on your airplane. This jet age technology provides improved aileron response, reduced turning time, a reduction in stall speed, and reduced landing and takeoff roll.

The **Micro VG Kit** consists of 80 Vortex Generators mounted on the wings, just aft of the leading edge. Included are installation tools, detailed drawings and instructions, templates for positioning VGs, spares, Loctite Depend adhesive and all the materials needed for the easy one day installation.

The **Micro Vortex Generators** are manufactured under our FAA PMA from aircraft grade 6063-T6 aluminum, alodined to a Boeing mil-spec, ready for painting.

When placing your order for a **Micro VG Kit**, please provide the Serial Number and N-Number. We can ship the same day if your kit is ordered Alodine, ready to be painted. We can paint the VGs to match your airplane for an additional \$200 per color. Painted kits will ship within 3 days. Amex, VISA, MasterCard, Discover and COD orders accepted. Please call for further information.

- Reduced Flap Usage
- Reduced Turning Time
- Improved Aileron Authority
- FAA STC Approved
- Easy One Day Installation
- Improved Characteristics
- Kit Price \$1450 plus S&H
