Calibrated Airspeeds from A23-24 Super Musketeer III
Full Gross Weight, Full Forward CG

MICRO Vortex Generators for the Beech 19A, B19, M19A, 23, A23, A23A, A23-19, A23-24, B23, C23, A24, A24R, B24R, C24R are now FAA STC approved and ready for installation on your airplane. This jet age technology provides a reduction in stall speed, improved stabilator authority, reduced landing and takeoff roll.

The **Micro VG Kit** consists of 82 Vortex Generators mounted on the wings, just aft of the leading edge, 32 Vortex Generators mounted on both sides of vertical stabilizer and 60 Vortex Generators mounted on the underside of the stabilator. Included are installation tools, detailed drawings and instructions, templates for positioning VGs, spares, Loctite Depend adhesive and all the materials needed for the easy one day installation.

The **Micro Vortex Generators** are manufactured under our FAA PMA from aircraft grade 6063-T6 aluminum, alodined to a Boeing mil-spec, ready for painting.

When placing your order for a **Micro VG Kit**, please provide the Serial Number and N-Number. We can ship the same day if your kit is ordered Alodine, ready to be painted. We can paint the VGs to match your airplane for an additional \$200 per color. Painted kits will ship within 3 days. Amex, VISA, MasterCard, Discover and COD orders accepted. Please call for further information.
